# OUTLAST

Registered trademark of the Space Foundation, an initiative of the aerospace industry and NASA. Patented Outlast® Phase Change Technology is recognized by NASA as Certified Space Technology.™

The Outlast® technology was originally developed for NASA astronauts to enable a long stay in space.

Today Outlast® improves the comfort of thousands of people and for this has received the award “Certified Space Technology®”.

A fabric that can balance the fluctuations in temperature, absorb the excess heat and release it again only when necessary. The result is constant warmth, and decreased sweating. Adapting to the microclimate of the skin, Outlast® prevents overheating and prevents unpleasant sensations of cold and shivering, thus ensuring a 100% deep and relaxed sleep. The result: Outlast® creates a comfort zone next to your body

OUTLAST®
