# BIO MEMORY

The visco-elastic bio memory is a material that can adapt to weight and pressure offering a unique comfort. These characteristics of total adaptability make it a leading-edge product, able to self-regulate and self-shape for a new way to sleep. A concentration of technology that, while resting, helps to find harmony. Its ability to adapt to the head and neck, returning to its natural shape, without providing wrong points of pressure, guarantees an optimal rest. This product is enriched with natural elements such as essential oils specifically used to assist sleep. Bio memory has a low environmental impact because it is produced without the use of uncontrolled foaming agents since it replaces part of synthetic products with natural products. It is also anti-mite and non-allergenic.
